

## The 12th POULTRY SHOW

While you are there, do not forget to put in a little time looking over our display of

INCUBATORS, BROODERS, POULTRY FOODS AND SUNDRIES

We will have the CYPHERS INCUBATOR at work hatching out a lot of eggs, and as it is under the immediate charge of Mother Henables you can figure on seeing some pretty fine chicks, though the late thunderstorms and New Year's bonus may reduce the size of the hatch this year.

Keep the Poultry Show in mind—don't fail to see it—and also keep in mind the fact that we have CYPHERS' fine line of POULTRY SUPPLIES in stock.

Scenes In Nicaragua War Zone

The true conflict between representatives of President Zelaya of Nicaragua and General Estrada of the insurgent force, took place near Bluefields, and it was reported that a battle was fought immediately afterward. This, however, was not true. The citizens of both Bluefields and Greytown, or San Juan del Norte, were anxious for the American bluejackets to land. Several times it has been reported that massacre was in progress in Bluefields when there was no foundation whatever for the statement, the whole thing being started by the excited people, who have a wholesome fear of Zelaya.

### TEMPER WITH CHILDREN MAY FORGET RESPECT

No Matter How Severe the Punishment to the Child, Do Not Get Mad—Different Temperaments Are Affected Differently.

To lose one's temper with a child is one of the greatest mistakes a parent can make. Yet to keep the voice free from irritation when sorely provoked is a difficult task, but one that must be accomplished, for childish minds have the capacity for criticism developed to an extraordinary degree, without the ability to make allowances for fatigue or illness on the part of the offender. There is only one fact; that "mother was mad," and if "mother" was very "mad" she drops perhaps unconsciously, in the eyes of her offspring. To be mad is to be naughty, and mother was naughty. Therefore mother ceases to be quite so infallible and altogether right as she was before the occurrence. It is something like discovering feet of clay in the idol. The form may be as beautiful, but the reverence ceases to be sincere.

There is just exactly one way in which a mother can right herself later if she has lost her temper, and that fact to the child. This may be by making frank admission of a dangerous procedure, and would be if the offense were often repeated. But if mother is sorry because she was angry, at least her naughtiness is lessened by contrition, and it is better to be thought contrite, and aware of the failure to do right, than to have been bad and refuse to admit it. There is this point, however—A woman who puts herself in a position where she must apologize to her children often loses a certain

authority over them. She becomes as likely as they to error, a frailty that no successful parent should have in the eyes of her offspring.

Children who have been naughty are almost invariably best controlled and more easily brought to a condition of submission by being quietly dealt with. The mere fact that the little one has been naughty is in itself terrifying to her. If to her own uneasiness of mind is added the confusion of a parental voice raised in anger, the effect is bound to be unfortunate, affecting different children according to their temperament. Some, in the greater fright, become sulky, others are impudent, while another type may burst into noisy tears. Calm rebuke or explanation of where in lies the fault will bring any of these children to a sense of regret and sorrow, in nine cases out of ten. In any case, loss of temper on the part of the parent will do no good morally to the child, even if outward obedience appears.

### HER FAVORITES.

Reggy Sapp—"Ah, do you like outdoor sports, Miss Rose?"  
Miss Rose—"No, they are too cheap. I prefer sports that can take a girl indoors and order an oyster supper."

Reginald Pickle—"There are places in the African jungles where one may enter and not be heard from for months. I sometimes feel as if I would like to hunt there."

Miss Tabasco—"Oh, if you only would, Reggy!"

Some men who expect a mansion in the sky will have no kick coming if they are even permitted to occupy an attic room.

## FORT DE RUSSY ITEMS

Arrangements are being made to send out the survey detachment, which up to the present time has been at work at Kahuku and Kahanu, on Monday next. The officer in charge of the detachment and Sergeant Charles Ford left this camp this morning to decide upon the future camp for the detachment. The tents and camp equipment will be sent out the last of this week, and a permanent camp established. A wagon train has been arranged to carry supplies to and from Fort De Russy to this sub-camp. Sergeant Charles Billsborough will be in charge of the instrument work, and Sergeant Charles Ford in charge of the camp. The detail will consist of about thirty men and will be under the command of Lieutenant L. H. Watkins, Corps of Engineers.

**No Handball.**  
The rain necessitated the postponement of the handball games between the teams from this camp and the survey detachment. As the games now stand, the teams are about equal, and if the weather will permit the series will be finished before the detachment leaves this post. The games which were to be played last evening will be contested this afternoon and tonight, and some close playing is sure to be seen. Handball has taken a great hold on this camp, and is encouraged on account of the fine exercise attached to it, as well as the enjoyment afforded to all.

The survey detachment located near Pearl City has been divided, so that it will now cover two portions of that part of the island. Sergeant Edward Gartz and a detail of men will work in the mountains, while the balance of the detachment will continue the mapping of the plantation lands at that point. Sergeant Bush will accompany the detachment which is to go into the mountains, while Corporal Terrien will be in charge of the Pearl City camp.

Private Ciel Witten, from the Pearl City camp, arrived at Fort De Russy for a few days' stay here. He will return to his detachment by buggy and remain at the main detachment camp.

Private Meek left this post for the camp of the survey party of which up to the present time has been at work at Kahuku and Kahanu, on Monday next. He performed this duty for the detachment which was stationed at Makaha before the holidays.

**New Office.**  
The department of the post quartermaster moved yesterday into its new office, which is located in a headquarters building and is so arranged that it is adjoining the quartermaster storehouse. This department is at present receiving many supplies both from local market and from the States, which are for the use of the Engineer troops now at the post and also for the proper equipment of the new officers' quarters that will be erected at this post.

Company G of the Engineers is receiving supplies for the survey detachments. These supplies are mostly received from the Engineer depot at Washington, D. C., and are forwarded to the outlying detachments by the company quartermaster sergeant, Frank Babel.

**To Hospital.**  
Private Ford of Company G, 2nd Battalion of Engineers, was sent to the hospital at Fort Shafter today for treatment of his eyes. He has been under treatment here, but it was thought that a complete examination of his eyes should be made. Private Land was sent to the hospital here with a badly cut hand, but prompt treatment of the wound makes it possible for him to be back to duty with his company shortly.

**New Telephones.**  
In addition to the present telephones at this post, requisition has been made to the Signal Corps for three complete telephones for use of the quartermaster department. These phones will be used for connection of the various buildings used by this department, as well as from the post stables and headquarters. At present the post has two telephone systems, and with these new telephones communication throughout the entire post will be possible. They will be installed under the direction of the post quartermaster department.

## FORT SHAFTER NEWS

The B. A. Glee Club met Monday night as usual in the assembly hall at Fort Shafter. Four new members were voted on and accepted. There is now a membership totaling 28 and more have applied but have not been voted in as yet. The new music has not yet arrived. When it does arrive practice will begin in earnest as the club intends to get in shape for an entertainment as soon as possible. Many invitations to furnish music have been received by the club but owing to the delay in not receiving proper music none could be accepted. Invitations are extended to visit the club at the regular weekly meeting to all that are interested in helping the club to succeed.

Ralph Jones, private, Hospital Corps, stationed at Fort Shafter, entertained the club with a number of very beautiful selections on the mandolin accompanied by the guitar. Jones is a professional with the mandolin, lately from the coast and formerly played with the orchestra of the National theater. His meeting closed at about 10 o'clock and the visitors all claim to have enjoyed a very pleasant evening and declare their intentions of coming again.

The Filipino stowaways, under detention here, are rationed with Company E, 20th Infantry. Some of them were very poorly dressed and they will be furnished with clothing by the Q. M. department.

Private Morris, 159th Company, C. A. C., and Private Wolf, Company E, 20th Infantry, pursuant to authority granted in special orders No. 3 dated Fort Shafter, Hawaii, January 3, 1910, have departed on the U. S. army transport Sheridan and will proceed to Presidio of San Francisco, and report to the U. S. military hospital at that place for further observation and treatment.

**Resume Duty.**  
The regular drills and garrison duties began again Wednesday after ten days' recreation without any duty except that which is absolutely necessary.

Corporal Rowe, Company G, was marked from quarters to duty Tuesday morning. Corporal Rowe has been unable for duty for almost two months, owing to a broken arm which he sustained in an accident at the skating rink.

**To the Coast.**  
The men that were ordered to proceed to various posts in the United States left Fort Shafter to board the transport about noon Tuesday. The following are the names and destinations of all the men of Fort Shafter who departed on the Sheridan: Sergeant Miles, Presidio of Monterey, Cal.; Corporal Reed, Presidio of Monterey, Cal.; Corporal Thomas, Presidio of Monterey, Cal.; Private Drews, Presidio of Monterey, Cal.; Sar-

gent Forbes, Angel Island, Cal.; 1st Class Private Hartridge, Angel Island, Cal.; Private Morris, Presidio, San Francisco, Cal.; Private Wolf, Presidio, San Francisco.

The garrison school began again Wednesday. School has been suspended during holidays.

The weather was so bad the students of the Kamehameha school were not out on the range Wednesday for their target practice.

Artificer Vicory and Private Plummer of Company G were busy Wednesday making seats for the lawn tennis court.

The usual garrison duty of the post began Wednesday morning after ten days of recreation and rest. The drills for Wednesday were the usual company drill for one hour, 7 a. m. to 8 a. m., and an hour of gymnasium drill for Companies E and F. Otherwise the duty for the day was the regular garrison, all the companies furnishing the details for guard.

The Governor of the Territory visited the post and paid his respects to Major General Barry Wednesday afternoon and received the usual salute.

The rain for the past week has been a great saving on the water supply at the post. In dry weather the supply gets quite low.

E. Chilton, brother of Lieut. Chilton Billy Chapman, Private Stuart, Company F, 20th Infantry, and two boys from Honolulu left Fort Shafter Monday morning for a pleasure trip around the island. They left Fort Shafter early and proceeded by escort wagon to Koko Head and from there they will proceed the remainder of the way with pack mules as the only means of transportation. This will be a trip of much pleasure and recreation and a very novel way of travel. They are expected to complete the trip within a week.

## BALLINGER USES HIS AX FREELY

AFTER INQUIRY THE SECRETARY ORDERS SEVERAL CHANGES IN RECLAMATION OFFICE STAFF.

WASHINGTON, November 12.—Replying to charges made in a magazine, Secretary R. A. Ballinger of the Interior Department today denied many reports recently circulated concerning the conduct of his department.

"To say that I ever advised, ordered or lent support to any effort to perpetrate fraud upon the Government," he said, "is not only false, but is intentionally so, if made by anyone who has taken the trouble to inquire into the facts."

In explanation of the charges in connection with the Alaska coal lands he went into the history of President Roosevelt's withdrawal from entry of all coal lands of Alaska in 1906, showing that the order was so modified by Secretary Garfield as to validate all applications made prior to May 16, 1907.

He then called attention to the fact that, in his annual report of 1907 as Commissioner of the General Land Office, he had recommended action by Congress to prevent any formation of combinations or trusts by claimants to coal lands, and added: "The anti-trust clause of the Alaska coal act, as finally passed May 28, 1908, was not submitted to Gifford Pinchot, but was signed by Representative Herbert Parsons of New York, in his letter of May 7, 1908, and favorably considered and endorsed by the Secretary in his report to Congress."

**Charges Charges Falsehoods.**  
Ballinger then stated that no Alaskan coal claims have been patented and says that the investigation of all such claims with a view of determining their validity or invalidity has been vigorously prosecuted. Ballinger denounced as "a plain ordinary falsification" a report that he is interested in 155,000 shares of the Alaska Petroleum and Coal Company.

"The statement that I or my former firm was attorney for this company, or ever advised or counseled it in its effort to acquire title to public lands, is also without basis in fact," he added. Ballinger said it was true that, in his private practice after he had resigned as Commissioner of the Land Office, he had been consulted in the preparation of articles of incorporation under the law of 1908, which had been approved by the President and which permitted the entry of as much as 2560 acres of coal land, but not true that either in this or in any other connection he had given any advice looking to a fraudulent act against the Government.

Asked about a statement that he had said that the proper course to take with the public domain was to "divide it up among the big corporations and let the people who know how make money out of it," Ballinger replied: "So assume a statement hardly merits a denial. Of course, I made no such statement. Such a thought could not be entertained by any normal intelligence."

## Famous Editor And Poet Who Died In New York

RICHARD WATSON GILDER

Richard Watson Gilder, poet, lecturer and editor-in-chief of the Century Magazine, who died suddenly in New York, was born in Bordentown, N. J., on February 8, 1844. After completing his education he enlisted in a Philadelphia battery, serving during a part of the Civil war, after which he was for a time engaged in the railway business. In 1865 he took up newspaper work in Newark and in 1870 became managing editor of Scribner's monthly. He was honored with degrees at Harvard, Princeton, Yale, Wesleyan and many other universities, and his writings have been read in all civilized countries.

Marie Correll declares that "Englishmen prostrate themselves before American helmsmen because of their beautiful faces." And their green backs.—Rochester Post-Express.

## WHITNEY & MARSH, Ltd

We have placed on sale our entire stock of the celebrated
